Table 4

Dukes staging for colorectal cancer

Dukes stage	Histology	Prognosis (5 year survival)
A	Muscularis propria not breached	90%
B	Breached muscularis propria	70%
C1	Positive mesenteric lymph node(s) (apical node negative)	60%
C2	Positive mesenteric lymph node(s) (apical node positive)	35%
D	Distant metastases	5%
